

90-DAY SOFTWARE TESTING CAREER ROADMAP

QA Career Roadmap Poster

Your 90-day journey from beginner to job-ready QA professional, at a glance.

Your 90-Day Journey

Print this and keep it visible. It maps the path this course takes you on — from fundamentals to a job-ready portfolio and interview readiness.

Phase 1 — Foundations (Weeks 1-4)

- Software testing fundamentals, SDLC & STLC
- Test design techniques (EP, BVA, decision tables, state transition)
- Defect management and high-quality bug reports

Phase 2 — Practical Skills (Weeks 5-8)

- Agile & Scrum for testers
- Jira & test management
- API testing with Postman; SQL for testers

Phase 3 — Modern & Career (Weeks 9-12)

- Automation fundamentals; AI for software testing
- Portfolio building
- CV & LinkedIn mastery; interview mastery & job search

Roles You Can Target

Starting role	Next step
