

QA INTERVIEW ACCELERATOR

Module 1 Assignment — Understanding the QA Interview Process

Assignment brief: scenario, deliverables, steps and how your work is assessed.

About this assignment

You are about to start applying for QA roles. Before practising answers, you need a clear picture of the whole interview process and a concrete plan to prepare for each stage.

What you'll demonstrate

- Map the stages of a QA interview
- Know what is assessed at each stage
- Build a realistic preparation plan

What to submit

- A map of a typical QA interview process
- A one-week prep plan with a focus per stage
- Your own pre-interview checklist

Step-by-step

1. List the stages you expect (screen, technical, behavioural, test task, final)
2. Note what is assessed at each
3. Draft a one-week prep plan
4. Build a pre-interview checklist from the Interview Day Checklist

Submission format

Submit as a PDF or DOCX.

How your work is assessed

If a QA lead reviewed this, they would look for:

- Awareness of all interview stages
- A realistic, spread-out prep plan
- Use of your portfolio as evidence

Templates & resources to use

- Interview Day Checklist — find it in the Resource Vault.

INSIDE STLC PRO TIP

Always prepare two thoughtful questions to ask them — candidates who do are the ones interviewers remember.
