

QA INTERVIEW ACCELERATOR

Module 4 Assignment — Agile, Scrum and Team-Based Questions

Assignment brief: scenario, deliverables, steps and how your work is assessed.

About this assignment

Modern teams want testers who engage early and collaborate. You need answers that show continuous involvement and the ability to critique acceptance criteria.

What you'll demonstrate

- Answer Agile/Scrum questions well
- Critique and improve acceptance criteria
- Show collaborative, mature communication

What to submit

- Answers to 5 Agile/team questions
- One short STAR story about working in a team
- A weak acceptance criterion rewritten as testable ones

Step-by-step

1. Prepare answers to common Agile/Scrum questions
2. Write a STAR story about collaboration
3. Take a vague criterion and rewrite it as testable criteria
4. Be ready to explain why the original was weak

Submission format

Submit as a PDF or DOCX.

How your work is assessed

If a QA lead reviewed this, they would look for:

- Continuous, early involvement described
- Ability to critique acceptance criteria
- Mature, positive collaboration stories
